

Department of Dermatology thesis/research (TDK) works and tutors 2022/2023

Tutor: Éva Remenyik M.D., Ph.D., D.Sc.

1. Title: Ablative laser treatment in HaileyHailey disease
2. Title: DNA repair mechanisms
3. Title: Indications in ablative Er:YAG laser
4. Title: Methods of sunprotection

Tutor: István Juhász M.D., Ph.D., C.Sc

5. Title: Chemical burns - special features and treatment options
6. Title: Dermatofibrosarcoma protuberans - therapeutic possibilities
7. Title: Possibilities of skin grafting in the reconstruction of defects after removal of skin tumors
8. Title: Role of NPWT (Negative Pressure Wound Therapy) in the treatment of burns
9. Title: Role of subcutaneous island pedicle flap in the reconstruction of defects after removal of skin tumors

Tutor: Éva Szabó M.D., Ph.D.

10. Title: Deformities and discolorations of the nails: relation to other medical conditions. Overview of the literature and case reports.

Tutor: Zoltán Péter M.D.

11. Title: Different applications of the latissimus dorsi musculocutaneous flap

Tutor: Krisztián Gáspár M.D., Ph.D.

12. Title: Characteristics of chronic urticaria – analysing our patients' data
13. Title: Methotrexate use in psoriasis – the diagnosis of liver fibrosis as a possible side effect

Tutor: Dániel Törőcsik M.D., Ph.D.

14. Title: Lipid disorder associated dermatological symptoms
15. Title: Pathogenesis and therapy of acne
16. Title: Role of lipid environment in the activation of dermal macrophages

Tutor: Irina Sawhney M.D.

17. Title: Drug hypersensitivity reactions: types and diagnostic approach

18. Title: Penicillin allergy: diagnostics and management.

Tutor: Gabriella Emri M.D., Ph.D.

19. Title: Correlation of clinicopathological classification of melanoma with disease outcome

Tutor: Andrea Szegedi M.D., Ph.D., D.Sc.

20. Title: New therapies in atopic dermatitis

21. Title: New therapies in severe psoriasis vulgaris

22. Title: Omalizumab therapy in chronic urticaria
